Subject: 21 MAR Meeting

Bob - As we've pushed hard to meet the deadlines for the technical discussions at the workshops, we've not been able to fully gather and catalogue the information on the potential prospective study sites.

Think a face-to-face meeting on 21 MAR would be premature and a conference call would be in order instead.

Let me know what your schedule is and we can set it up.

Thanks,

John A Satterfield
